

Work Health and Safety Policy

Every QRMC worker has the right not to proceed with a task if they do not consider it to be safe.

QRMC is committed to achieving these WHS objectives:

- Ensure the ongoing physical and mental health and safety of our workers and clients.
- Comply with all current legislative and contract requirements related to WHS and, when required, comply with our clients' WHSMS requirements.
- Ensure that WHS considerations are not compromised by other business objectives.

We will achieve these objectives by promoting:

- The physical and mental health and safety of our workers.
- To experience no non-compliances with WHS requirements.
- To maintain an organisational culture in which WHS objectives are not adversely impacted by decision-making on other business objectives.

Steve O'Rourke
Director
